SUMMARY

Motivated Computer Science undergraduate currently in the 3rd year of study, with hands-on experience in full-stack web development and a strong foundation in Data Structures and Algorithms. Passionate about building scalable and efficient applications, with exposure to real-world projects through coursework and personal initiatives. Eager to apply technical skills, learn from industry professionals, and contribute to impactful projects through an internship opportunity. Open to immediate joining and relocation.

EDUCATION

Jamia Hamdard

B.Tech., Computer Science

June 2027

Current CGPA: 7.6/10

COURSEWORK

Data Structures and Algorithms, Operating Systems, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Probability, Machine Learning

SKILLS

Languages: Java, JavaScript

Frameworks & Technologies: React, Node.js, MongoDB, RESTful APIs

Tools: Git, VS Code, Postman

PROJECTS

Vandor – House Sell & Rent Platform (*React, Node.js, Tailwind, Express, MongoDB*) [Code] Dec 2023

- Built a full-stack real estate portal with advanced search, filters, and secure inquiries.
- Leveraged React hooks for state management and real-time UI updates.

Raw Material Management System (*HTML, CSS, JavaScript, RESTful API*) [Code] Sep 2023

- Designed inventory management web app with real-time stock tracking.
- Created RESTful APIs for dynamic inventory updates.

WORK EXPERIENCE

Google Developers Student Club

Volunteer, Tech Team

Apr 2025 – Present

- Built web tools using React for hackathons, boosting student participation by 50%.
- Developed Node.js and Express microservices to streamline and automate event signups.
- Optimized data workflows to enhance system performance and transparency, reducing manual processing by 40%.

HACKATHONS

ION-ATHON Hackathon | **HackJMI**
